LOGNOTE -- Chief, Operations Group, 10 July 1985

1. (Lowcock) On 16 June I made a farewell call on Bahraini Minister of Information Tariq Al-Mu'ayyid. During our talk, he advised that he is planning a visit to Washington in October 1985. The precise dates for the visit had not yet been fixed. While the main purpose of the visit will be to visit the Smithsonian museums in conjunction with a Bahraini museum project, he would also like to visit FBIS Headquarters. Exact timing for the FBIS visit will be coordinated with Bureau Chief-Designate [redacted]. I will brief [redacted] on the minister's plans during [redacted] upcoming Washington TDY. The minister will also be visiting USIA during his stay in Washington.
